

# HIT CC Series

Compare HIT CC series with HIT SC series by overlapping the tools,  
HIT CC series has a longer blade head to reach far positions and cut cables.

This feature makes HIT CC series is more convenient to use in narrow place,  
or to reach cables with a little distance.

The bolts on cable cutters may stuck in narrow places.  
Only if the tool has a longer blade head that can do the cut in such situation.
